

The Physics of Spins

This seminar will examine why airplanes spin, the phases of a spin, the forces acting on the airplane during each phase, the methods of recovery from each phase, and how to avoid spins altogether, with special emphasis on stall-spin accidents.

Directions: Randal Rd. North to Pyott Rd then right on Pyott to the Lake in the Hills Airport exit. Right at the exit, then right at the stop sign, then left at Blue Skies flying Service.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
